Prepare the batter combining the Menù powder product with sparkling water and the crushed ice, then leave the mixture to rest in the refrigerator. In the meantime cut the carrots, celeriac and the green part of the zucchini into julienne; rinse the cod and dry it carefully then cut it into pieces. At this point, dip the Cod in the batter and fry it in the hot oil at 165 ° C. Do the same thing with the julienne vegetables. Remove the excess oil by transferring the cod and the vegetables on paper, then serve them on the plate with a side of the Orange & Onions Sauce.
